

JEE MAIN 2025 (ONLINE) 24TH JANUARY MORNING SHIFT

Question Paper · answer key at the end

Time: 3 Hours

Max. Marks: 300

Questions: 75

General Instructions:

- The duration of the paper is 3 hours. It has 75 questions: Physics 25, Chemistry 25, Mathematics 25.
- Each subject has Section A (multiple-choice questions, only one correct answer) and Section B (numerical-value questions).
- Marking: +4 for each correct answer, -1 for each wrong answer, 0 for a question not answered.
- The answer key is at the end. Scan the QR code beside any question for its step-by-step solution.
- Practise this paper as a timed test on the real exam screen, free, at pyqside.com.

Section A (MCQ) — 60 questions

- Q.1** An object of mass 'm' is projected from origin in a vertical xy plane at an angle 45° with the x-axis with an initial velocity v_0 . The magnitude and direction of the angular momentum of the object with respect to origin, when it reaches at the maximum height, will be [g is acceleration due to gravity]

[JEE Main 2025 (Online) 24th January Morning Shift]

- (1) $\frac{mv_0^3}{2\sqrt{2}g}$ along negative z-axis
 (2) $\frac{mv_0^3}{2\sqrt{2}g}$ along positive z-axis
 (3) $\frac{mv_0^3}{4\sqrt{2}g}$ along positive z-axis
 (4) $\frac{mv_0^3}{4\sqrt{2}g}$ along negative z-axis

- Q.9** An ideal gas goes from an initial state to final state. During the process, the pressure of gas increases linearly with temperature.

- A. The work done by gas during the process is zero.
B. The heat added to gas is different from change in its internal energy.
C. The volume of the gas is increased.
D. The internal energy of the gas is increased.
E. The process is isochoric (constant volume process)

Choose the correct answer from the options given below:

[JEE Main 2025 (Online) 24th January Morning Shift]

- (1) A, C Only (2) A, D, E Only
(3) E Only (4) A, B, C, D Only
